

Welcome to Year 1

This Bearemy. He'll be around throughout the year to help us learn new things! We might even meet some of Bearemy's friends if we're very lucky!

What will we learn?

In Year 1, we have lots of new exciting things to learn! We will have daily English, Maths and Phonics lessons but don't worry, there will still be plenty of time to play.

As we progress through the year, the amount of time we expect children to focus on work at tables will increase but we will keep an element of practical work across the curriculum.

Over the year we will be looking at lots of different topics. Each topic has a special question for us to answer. Below are our topic questions for this year.

Autumn 1 – What is it like to live in the UK?

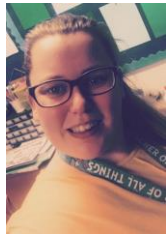

Autumn 2 – Who am I? My life and my school.

Spring 1 – Why can't meerkats live in the North Pole?

Spring 2 – Why was the Titanic a famous ship?

Summer 1 – What is so special about the seaside?

Summer 2 – Who is George Stephenson?

I'm so excited for September! Year One is a very important, very busy and very fun year!

Miss Defty

Our classroom

Our classroom will be going through a bit of a change over the summer. It might look a little bit like this. There will be lots of new exciting things for you to do when you come back to school.
